SAFE DROPSHIPPING PROPOSAL

We are a team of experienced dropshippers, doing dropshipping from last 5 years. We started with same old technique from Samsclub, Costco, Walmart to Amazon/eBay dropshipping. Later on, Amazon updated their policies and start suspending Amazon accounts, based on dropshipping violation. Then they started section 3 for dropshipping violation and Amazon business agreement. At that time when everyone moved to other business platforms, we used to start research on safe dropshipping. How to start safe dropshipping that follow all the Amazon/eBay policies.

So, 2 years back, we started dropshipping from China by directly contacting suppliers and manufacturers in IT and Automotive industry. They are providing expedited shipping to any country in the world and found this is the

most secure way of business which follow all the policies related to dropshipping policy, invoices, packaging issues and product compliance. In this dropshipping model account last longer and does not have risk of deactivation.

Now we are offering you almost 100% safest way of doing dropshipping that can save your account and can help you making over \$100k-\$500k in sales every 30 days with 15%-30% profit margin.

We are providing these services for Amazon, eBay, Walmart, Newegg and Shopify marketplace. We used to do FBA, FBM and dropshipping directly from China and Taiwan. We work in IT products and spare parts specially after-market parts of automotive industry.

We recommend beginners the investment / credit card limit of \$10k-\$20k and for intermediate Businessman average investment or credit card limit of \$25k-\$75k. For a Professional Businessman \$100k-\$500k is the ideal and good credit card limit or investment. Profit margins is really good in these niches which will be 15%-30% and safer than other niche/categories.

We source these products from China and Taiwan in company packaging, shipping labels, invoices and customized boxes with expedited shipping and we can

provide data to Amazon/eBay in case they put our account under any review. We have our own reinstatement team in case Amazon needs any verification.

For sourcing those products, sometimes we need to pay directly via PayPal, Alibaba or eBay buyer account. Payment can be made directly to suppliers and manufacturers whom we are working from 2-3 years. For new suppliers or manufacturers, we use Alibaba or AliExpress to assure quality and safe mode of payment. The product shipping time 7-10 days and it can be done smoothly.

Risk factor is minor or almost zero as compared to other models of dropshipping by using company boxes and proper invoices. This is the proper method of dropshipping as described by Amazon policies.

We can sell these products worldwide as the IT product have business buyer in every country. It does not need any specific country to sell. If your Amazon seller account is suspended for FBM, you can enable global shipping and we can target Canada, Mexico, UK, Australia, Japan, Germany, Netherlands, France, Spain, Italy, Saudi Arabia etc. to sell those products globally. We can achieve good sales on eBay, Newegg and Walmart too. So, you can start

this today by applying global shipping to Amazon or opening eBay, Newegg or Walmart seller account.

Main advantage of selling in this category is that most of the clients are permanent. Layman buyer do not buy these products as it mostly ordered by the IT business owners or technical staff. So, if we provide them best quality products with discount or low prices then other sellers in time then they start to buy those products permanently in bulk. So, to grab permanent clients this niche is ideal to sell.

Please check FAQs, if you still have any query, please message us so we will let you know which marketplace you should going to start with. So, we can discuss more in details about the packages for that model.

Ans. Yes, we have a team of 70-100 expert members for dropshipping. My team is doing this business for 5 years and already managing 30-40 accounts. Many of them are already above \$100k sales. Some are on \$200k sales and others have less due to low credit card limit of client.

We can keep growing our team time to time. So, we can easily manage 150200 accounts with \$100k-\$500k in sales or even more. Sales will be dependent on your credit card limit.

40. What are the requirements?

Ans. For eBay, we need Alibaba buyer account, eBay buyer account and PayPal account, where manufacturer will send invoices. So, we can pay. If you are not comfortable sharing PayPal details, we can ask you to pay. It is better to have old eBay and PayPal account otherwise we need to slow in beginning. So, both of them does not get blocked for doing bulk purchase. Same requirements applied for Amazon seller account.

For Walmart, we need Alibaba buyer account, PayPal, eBay account, Samsclub membership and Costco membership to do dropshipping on Walmart.

41. I am a beginner. How can you help me to understand in more details?

Ans. If you are a beginner, then we will guide you step by step to do this business. We need Alibaba and eBay buyer account and you also need to have PayPal, otherwise you will need to send payments to manufacturer and suppliers from your bank account directly. Also, you need to sign up for Amazon seller account globally ([Sellercentral.Amazon.com](https://sellercentral.amazon.com)) or depending on your country. If you want to start eBay dropshipping, eBay seller account is required. If you want to sell on Newegg or Walmart you need to sign up for Newegg or Walmart seller account by filling their form and submitting your application to sell on these platforms. If you want to sell on all platforms you need to create seller account on all marketplaces. After you have your seller account is ready, we can start searching products from China according to marketplaces and country we are targeting. After that we will list those products on our account and once any item has been sold, we will make payment to ship that item to our Amazon buyer with our packaging, invoices and label. After that we get tracking information in 24-72 hours then we will add those tracking information to our seller account. Once item got delivered, any platform will pay for that order in 14 days. So, we need backup investment to fulfil orders for at least 14 days. At the end of every month, we will share the profit sheet with you and you will share the profits. For any returns or refund we made before last day of month will be added to the same profit calculation sent and for rest made after 31st we will add those amounts in next month profit calculation sheet. It is our deepest request if you start with us. So, transfer the profit within 3-5 days after the profit sheet has been sent, for managing returns we will use a 3PL warehouse/or your home where the returned product can be shipped again to our next buyer.

In case your Amazon account is suspended using the same old method, you can start selling on eBay, Walmart and Newegg marketplace. As these to generate good profits. We can also try to open up your Amazon seller account if there is any possibility of reinstatement. Or you can use other global marketplaces to sell these products.

54. What if I still want to use Samsclub, Costco and Walmart as a vendor? Can you do it safely?

Ans. If you want to do Samsclub, Costco and Walmart to eBay and Amazon dropshipping. We can do it safely by doing selling of only weighted products. So, they cannot be ship with their original boxes/packaging. We also use 3PL warehouse to use our own packaging for dropshipping.

55. Can the invoices be paid from credit card?

Ans. Yes, the invoices can be paid from your credit card using PayPal or you can pay directly via bank.

56. I do not have credit card, but have \$20k-\$30k investment. Can I get myself into this business?

Ans. There is no issue if you do not have credit card. We can use your investment from debit card and use your investment for this purpose. We can pay manufacturer directly from bank. Having PayPal and eBay account is important.

57. I am new to all this. Can you guide me throughout the process?

Ans. For a new account:

First 30 days, we will go for \$1000 of profits. In next 30-60 days we will go for \$1000-\$3000 of profits.

In third month, we can try to have \$3000-\$10,000 of profit. This all can be achieved if you have good credit card limit. Assuming 15%-30% profit margin based on limit.

If you are a beginner, then we will guide you step by step to do this business. We need Alibaba and eBay buyer account and you also need to have PayPal, otherwise you will need to send payments to manufacturer and suppliers from your bank account directly. Also, you need to sign up for Amazon seller account globally (Sellercentral.Amazon.com) or depending on your country. If you want to start eBay dropshipping, eBay seller account is required. If you want to sell on Newegg or Walmart you need to sign up for Newegg or Walmart seller account by filling their form and submitting your application to sell on these platforms. If you want to sell on all platforms you need to create seller account on all marketplaces. After you have your seller account is ready, we can start searching products from China according to marketplaces and country we are targeting. After that we will list those products on our account and once any item has been sold, we will make payment to ship that item to our Amazon buyer with our packaging, invoices and label. After that we get tracking information in 24-72 hours then we will add those tracking information to our seller account. Once item got delivered any platform will pay for that order in 14 days. So, we need backup investment to fulfil orders for at least 14 days. At the end of every month, we will share the profit file with you and you will share the profits. For any returns or refund we made before last day of month will be added to the same profit calculation sent and for rest made offer 31st we will add those amounts in next month profit calculation sheet. It is our deepest request if you start with us. So, transfer the profit within 3-5 days after the profit sheet has been sent, for managing returns we will use a 3PL warehouse that can ship that product to our next buyer.
